

T E T S U G

THE EQUIPMENT AND TELECARE SERVICE USER GROUP

Be involved with shaping services in Leeds by working with us and our partners

Do you or your family live in Leeds?

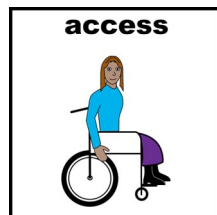

Would you like to have an ongoing say in how services are delivered?

Join our group focussing on issues concerning:

- technology and equipment
- issues with items supplied and find ways to resolve them
- giving feedback to technicians developing new technologies and products.

There are regular meetings and opportunities encouraging you to contribute directly at a decision-making level.

If you'd like to find out more about how you could get involved with the group, get in touch.
